DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3, 6, 21-22 and 28-29 are rejected under 35 U.S.C. 103 (a) as being unpatentable over Auth et al (5,827,229) in view of Hopkins et al (6,544,279).

Regarding claims 1, 3, 21-22²⁸ and 29, Auth et al disclose in figs 4, 6a-b, col. 4, lines 54-67 and col. 8, lines 25-37, a system for removing thrombus from blood vessels including: a catheter (18) has a lumen extending between the proximal and distal opening. The distal end of the catheter comprises a bent tip (50) with a rounded profile. The catheter is adapted to be advanced along the guidewire (14). However, Auth et al do not disclose a vascular filter is disposed on a guidewire.

Hopkins et al teach a vascular filter is disposed on a guidewire (figs. 22b-c, item 550).

It would have been obvious to one having ordinary skill in the art at the same time the invention was made to modify Auth et al by adding a vascular filter is disposed on a guidewire as taught by Hopkins et al in order to prevent thrombus from blocking blood flow to tissue.

Regarding claim 6, Auth et al disclose the catheter comprises a rapid exchange device (see col. 5, lines 60-67).

Response to Arguments

Art Unit: 3731

2. Applicant's arguments filed 10/23/2003 have been fully considered but they are not persuasive. Applicant's arguments with respect to claims 1 and 21 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

U.S. Pat. No. 6,142,987 to Tsugita

U.S. Pat. No. 6,620,182 to Khosravi

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
